

Chairman of Board - TPE

Vice Chairman - DCA

Removal of [REDACTED] (Ref: Your CLC-11/20)

Thank you very much for the information given me in your memorandums of the 20th and 17th. Following their receipt, the Management Committee put together an instruction to [REDACTED] to investigate the possibility of moving of facilities to the northern part of [REDACTED] as promptly as construction would permit. This is in line with the latter part of your Para 3 (c) in the November 20th memo.

As soon as we have your and Al's recommendations along with approximations of the amount of money involved, approval of our plan for relocation will be requested and we have been encouraged to believe that it will receive favorable consideration.

cc: President
